

Battery Holster

The DT Research Battery Holster (ACC-001-64) is designed to be a charging case as well as a portable power bank while three fully-charged DR202 batteries are stored inside.

With multiple power outputs, the Battery Holster supports charging DT Research Tablets and supplies power to peripherals while mounted on a rolling cart.

Features

- Durable aluminum case, holds three DR202 batteries
- Supplies power to up to three devices at the same time
- 12V, 19V and 24V DC-outputs; power for multiple peripherals (e.g., mobile printer, vital sign monitor, and the DT Research product(s))
- Built-in and external LED indicators to display the battery power status
- Bracket to mount on the medical rolling cart
- Cables included for connecting to peripherals

Specifications

I/O Ports	
DC-out Connector	1 (2.5mm for 12V), 1 (1.35mm for 24V) and 1 (1.7mm for 19V) with exclusively designed cables
Battery Slots	3 with lid
External LED indicator Connector	1
Mechanical and Environmental	
LED Indicators	Built-in and external LED indicators for battery power status
Battery Support	3 DR202 Li-Ion batteries; 90W, 8250mAh (optional)
DC-out	12V, 4.16A; 24V, 2.08A and 19V, 2.63A
USB	1 x USB Type-C (For battery health check)
Enclosure	Aluminum + ABS plastics
AC/DC Adapter	Input: 100 – 240V AC; Output: 19V DC, 3.78A
Dimensions (H x W x D)	7.3 x 3.6 x 4.7 in/ 185 x 92.6 x 120 mm
Weight	4.72 lbs/ 2.14 kg (with holder)
Regulation	FCC Class B, CE, C-Tick, RCM, MEPS, RoHS compliant
Temperature	Operation: 0°C – 40°C; Storage: -20°C – 60°C
