Digital Pen

DT Research's Digital Pen is an active pen based on capacitive coupled sensing technology for users to write, draw or mark-up Adobe PDF files and Microsoft documents as well as press the side eraser button to clean up.

With its functional buttons, DT Research's Digital Pen also performs as a mouse and enables to switch seamlessly among touch, pen, mouse and keyboard, that helps simplify daily works on DT Research Rugged Tablets and provides excellent user experience to increase work efficiency.
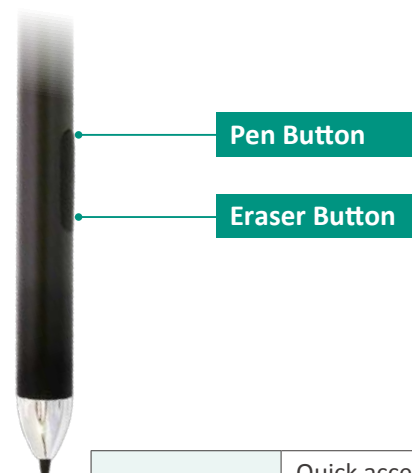

Features

- Active capacitive coupled technology

- Lightweight, durable, and highly response

- Aluminum material with elegant, weight-balanced and ergonomic design

- Function buttons for right-click and eraser applications

- Pressure-sensitive tip with apps to support pen pressure
