Precautions

1. Always exercise care when operating and handling.
2. Do not disassemble any portion of the charger and adapter as this will void any product warranty.
3. Do not use any power adapter other than the one provided with the device or acquired from the manufacturer or its partners.
4. In the unlikely event that abnormal noise, strange odor, or smoke is present, immediately disconnect all power sources. Please report the problem to your device provider immediately.

Specifications

Color	White
Dimensions	321 × 157.6 × 81.6 mm
Weight	1300g
Operating temperature	0°C to 40°C
Storage temperature	-20°C to 60°C
Humidity	0% to 90% non-condensing
AC Adapter	19V, 200W
USB Port	1 × USB 2.0 latest USB/charging, no host mode
Ethernet	1 x 10/100 MB Base-T RJ45 LAN
Compatible Battery Model	DR202
Battery Type	Li-Ion
Battery Rating	90Wh, 8250mAh
Regulatory	FCC / CE / CB / RCM

*Specifications subject to change without notice.

6-bay Smart Battery Charger for Medical AIO

GC596S

BASIC OPERATION GUIDE

ENGLISH

INTRODUCTION

The GC596S 6-bay Smart Battery Charger (ACC-001-596S) charges the hot-swappable DR202 batteries for the DT574L, 582T and 584T series Medical Cart Computers. With Wi-Fi, a 10/100 Mb Base-T RJ45 LAN port, and a USB Type-C port, it supports battery status data transfer and monitoring. The Kit includes one battery cradle, an AC-DC adapter, and a power cord.

The battery cradle features a DC-input jack, six battery slots, and six LEDs for power and charging indicators. Connect the AC-DC adapter cable to the DC-input jack and then insert the battery packs in the correct direction into each slot for charging.

After inserting the battery pack in the slot, the charging LED lights up (orange) if the battery pack is being recharged. When charging is complete or if the battery pack is already fully charged, the LED will show solid blue.

LED Indicator Status

- Power On/ Off: LED off
- Battery Fully Charged: Blue
- Charging Battery: Orange
- Battery no longer good: Blinking Orange
