Using the Detachable Keyboard with the Tablet

1 Rotate the center docking port so that it is facing up. Unfold/ lift up the metal stand from the back of the main Keyboard, and place on a flat surface such as a lap, table, or desk.

2 Install the Tablet directly onto the Keyboard docking port, making sure to align the port connectors. The Keyboard and Tablet will automatically function together.

> Note:
> Battery or external power supply is not required to use the Keyboard.

3 Fold the Keyboard toward the Tablet for portability and as a protective cover to shield the screen.
